

A pilgrimage to our future...

Each prayer bead represented a different person we're thankful for.

We had to think of a time which was difficult or made us unhappy.

We created our own prayers and wishes for a better world.

Here we wrote and drew about a time which was made us happy.

We wrote down the wrong choices we made and unkind words we had said and threw them in the bin as a sign of atonement and repentance.

We watched a video and reflected on how to make other people's lives better.
